

New York Nov 22/43

Dear Friend

I am urged by letters to be at Washington early in the session. For this and for other good reasons I wish to know soon whether it is the intention of the Boston friends that I should go there. I should make my arrangements not to return to N. Y. after the Phil^a meeting.

I thank you for the Braintree resolution. It was sent down for this week, but crowded out by the printer. It is the second resolution of the kind that I have ever seen, passed by a Dem. meetg. I shall seize with

pleasure all opportunity of giving
the utmost publicity and
praise to such acts.
